Per-task first-order effect $g_i^\top M^{-1} d$ on TiltedPair2D (λ sweep, MGDA d)

Euclidean (both tasks) | Adam - task 1 | Adam - task 2 | Madam - task 1 | Madam - task 2

$\lambda = (0.10, 0.90)$ signed task effect

$\lambda = (0.20, 0.80)$ signed task effect

$\lambda = (0.30, 0.70)$ signed task effect

$\lambda = (0.40, 0.60)$ signed task effect

$\lambda = (0.50, 0.50)$ signed task effect
